Plan Your Possible

WHAT TO EXPECT

- **Five, Interactive Group Coaching Webinars (access to session recordings)**

- **Weekly Q&A**

- **Templates & Resources**

- **Members-Only Facebook Group**

- **BONUS #1: 30 min, 1:1 coaching session with Belinda**

- **BONUS#2: Your Possibility Year digital toolkit**

In working with entrepreneurs, career-changers, authors and leaders I have noticed that inconsistent implementation, low confidence and overwhelm are the top areas causing even the most well-intentioned high-achiever to get stuck.

I've infused Plan Your Possible with business planning 'best practices', customized visual tools, and lessons learned from launching my own business and successfully supporting high-achieving professionals, authors, and business owners.

In this 10-Week course you'll get expert advice from my 20+ years in education, non-profit management, training and coaching to help you create an aligned vision, cultivate a hope-mindset, and identify the high-leverage goals that will make building a life and business you love possible!
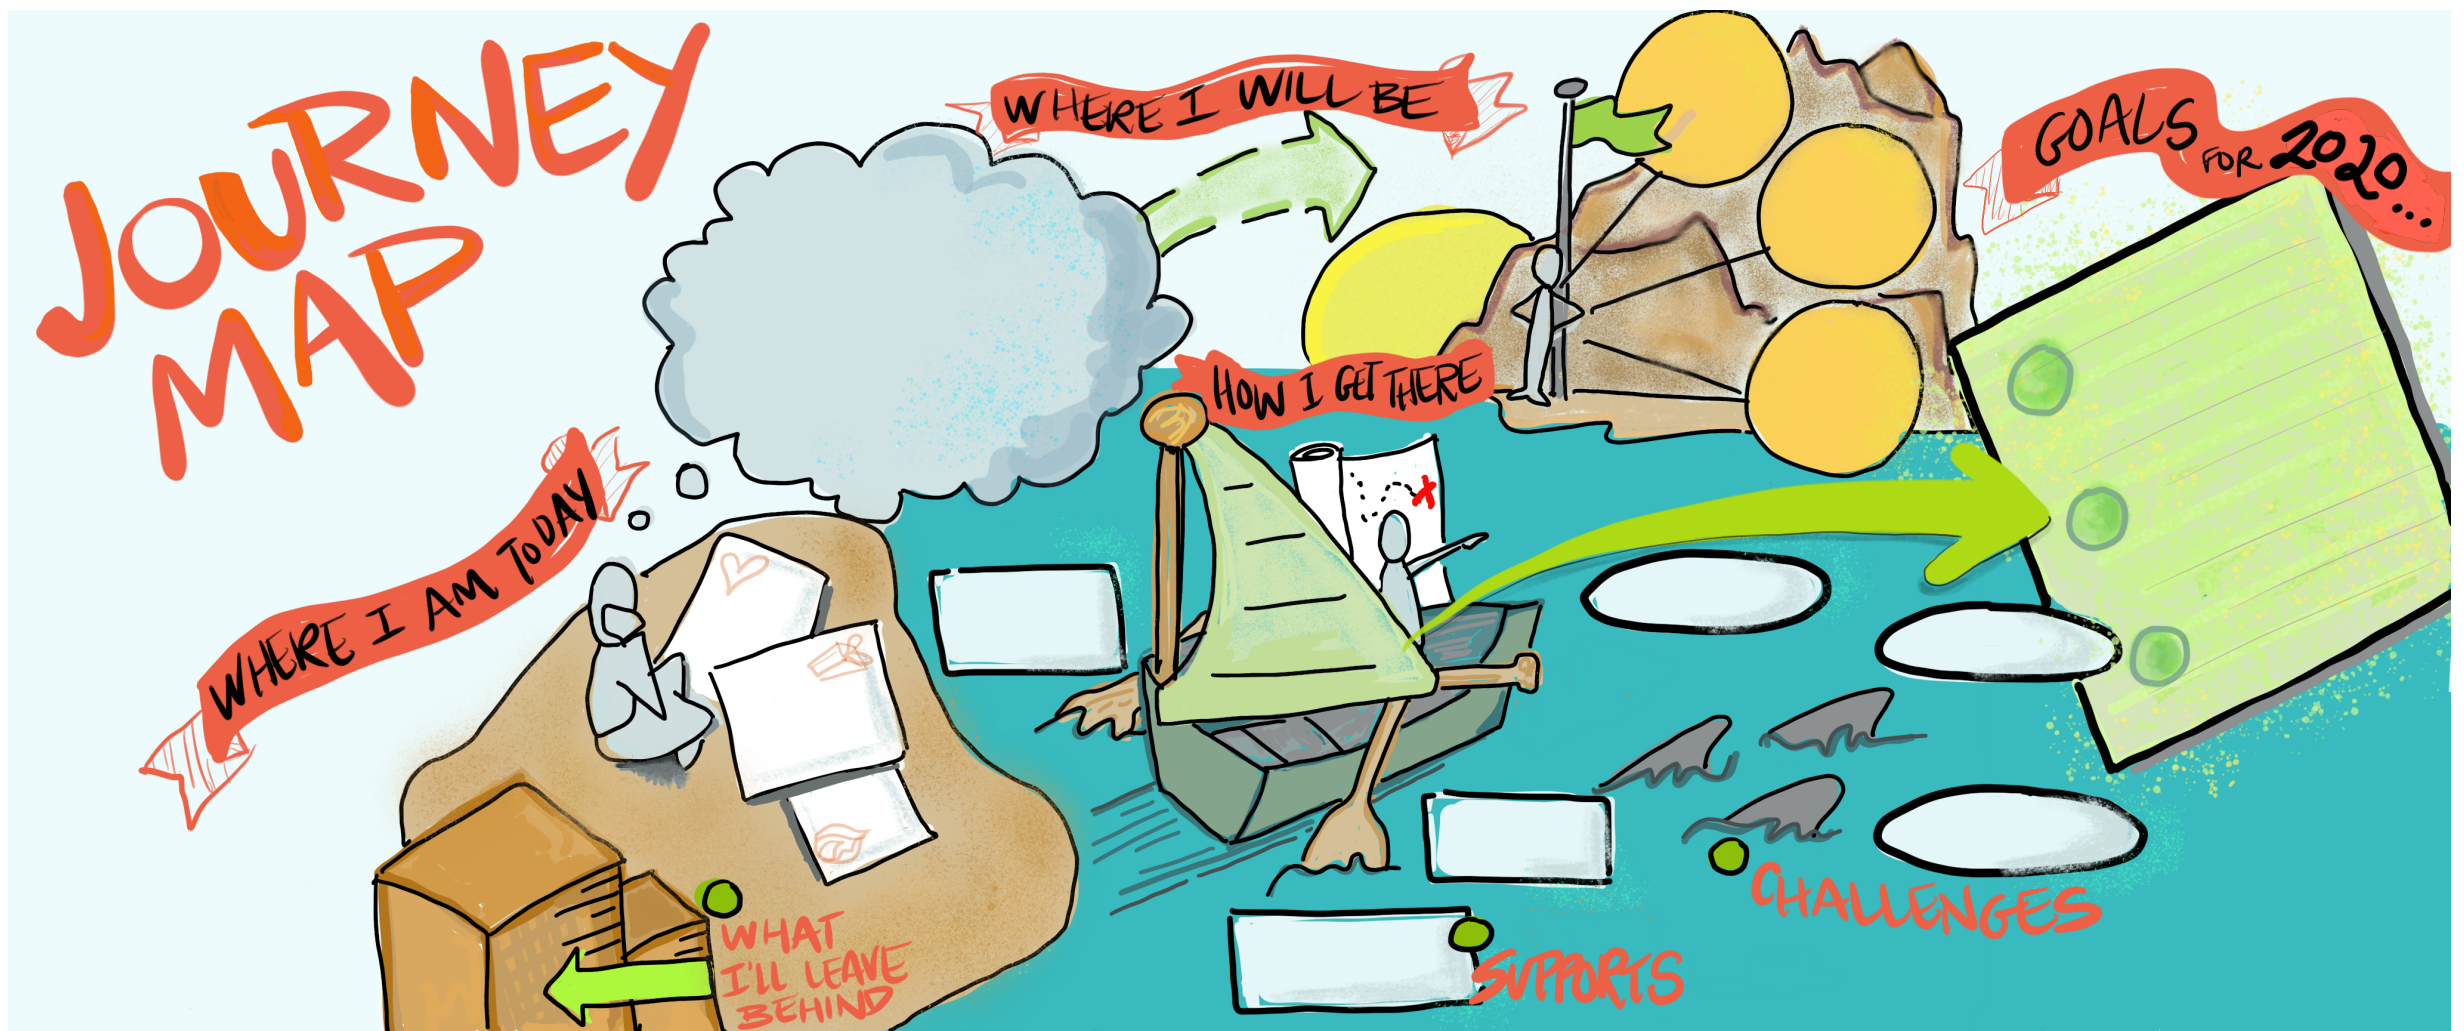

MEET THE HOST
Belinda Jackson

Belinda helps authors, speakers, entrepreneurs, and thought leaders find their ground-breaking message, create new strategies, and design the future of their life and business using custom illustrations, The Possibility Journey Map, and the visual vision mapping process (VVMP).

- Founder of Picture it Possible: visual strategy + facilitationⓇ, a consulting firm on a mission to ignite the vision in others so they are on fire and bring positive change in the world.

- Used visual supports to amplify the message and impact of universities, schools, and faith-based organizations, including Greater Impact University Collaborative, Johns Hopkins University, and the University of Delaware.

- Designed visual vision maps and custom visuals to help over 15 entrepreneurs and business owners find insights or identify gaps that were key to launching their business, releasing their first book or rebranding their signature program.

- Over 20 years experience leading teams, and mentoring high-achieving professionals.

- Master facilitator with certifications in teaching, adult learning, instructional design, online learning, and various coaching techniques. Versed in human-centered design, design-thinking, agile approaches to technology product development, and lean start-up methodologies.

- Expertise in implementation science and evidence-based approaches to running successful programs and projects.

- Skilled in strategic planning, appreciative inquiry and root cause analysis.

The Possibility Journey Map | Picture it Possible

The Possibility Journey Map is one of the core exercises I have participants complete in the **Plan Your Possible** course. Unlike the self-guided design of the Toolkit (which you receive as a bonus for enrolling), as a participant in the course you receive personalized support.

I work with you every step of the way by prompting, probing, providing a different perspective, and celebrating as you gain traction and accelerate your progress.

If you've already started working through the toolkit or used it in the past you'll have a great foundation to begin the course. If you haven't, no worries, you'll have time before the second session to work through the key steps.

Throughout the course you will receive visual templates, and planning tools to help engage your brain and lead you to breakthrough ideas and solutions!

I will also use visual tools during your **Bonus** coaching session to help you problem solve and when helpful, create graphic representations of some of your core values or concepts.

Plan Your Possible

THE INVESTMENT

Time:

- 1.5 hours per week (webinar, assignments, Q&A)
- 30 minutes for 1:1 coaching

Finance:

- $497 (one-time payment)

OR
